

## EB04 Yes and No

### Definition

**Yes** - used as a function word to express assent or agreement.

**No** – the act of disagreement

<b>Yes</b>	<b>No</b>

**Yes/no** questions are also known as polar questions or closed questions.

This is because the questioner is only looking for a "yes, no, maybe, or I don't know" answer.

Do you play basketball?

Did you go to the office this morning?
