

Helpful Robots

Nowadays, robots help people in many ways. For example, robots are used to build cars and do work that is too dangerous for people. Some robots can have conversations with people, and this makes them good partners for children and even adults. Robots are now playing a growing role in people's everyday lives.

- No.1 According to the passage, why are some robots good partners for children and adults?
(Because) they can have conversations with them [people].
- No.2 Now, please look at the people in Picture A. They are doing different things. Tell me as much as you can about, what they are doing.
A girl is using a remote control [moving a robot]./A woman is opening [closing] the curtain./A man is drawing a picture (on the blackboard)./Two boys are making a robot./A girl is painting a robot.
- No.3 Now, look at the boy in Picture B. Please describe the situation.
He can't buy the robot (in the book) because the store doesn't have it [it is already sold out].

Now, Mr./Ms. _____, please turn over the card and put it down.

- No.4 Do you think more people will want to have robots as pets in the future?

This document is for use in eTOC training sessions, use outside of eTOC is strictly prohibited.

Yes. → Why?

Because it's easy to take care of robots. We don't have to feed them every day.

No. → Why not?

I think people like to have animals as pets. Animals can understand people's feelings.

No.5 A lot of people enjoy outdoor activities such as camping. Do you like to go camping?

Yes. → Why?

I can spend time with my family in nature. Also, cooking our own food outside is fun.

No. → Why not?

Sleeping in a tent isn't comfortable. Also, I don't like places with many bugs.
