

## Cross-curricular 4: Geography

**A.** Where do you live in the world?

**B.**  <sup>CD2</sup><sub>58</sub> Listen and repeat.

**C.**  <sup>CD2</sup><sub>59</sub> Listen and read.

Almost thirty percent of the Earth is land. The land is divided into seven continents. They are Africa, Antarctica, Asia, Australia, Europe, North America, and South America. The continents are always moving, but very, very slowly. This is called continental drift. Scientists think that millions of years ago, California and Australia were neighbors!

Asia is the largest continent. It is about thirty percent of all the land on Earth. It also has the most people. Africa has the most countries. It has the hottest weather, too. North America has the biggest lake. Antarctica is the coldest and the windiest continent. People can't live there. It's too cold!

**D.** Is it true? Write ✓ or ✗.

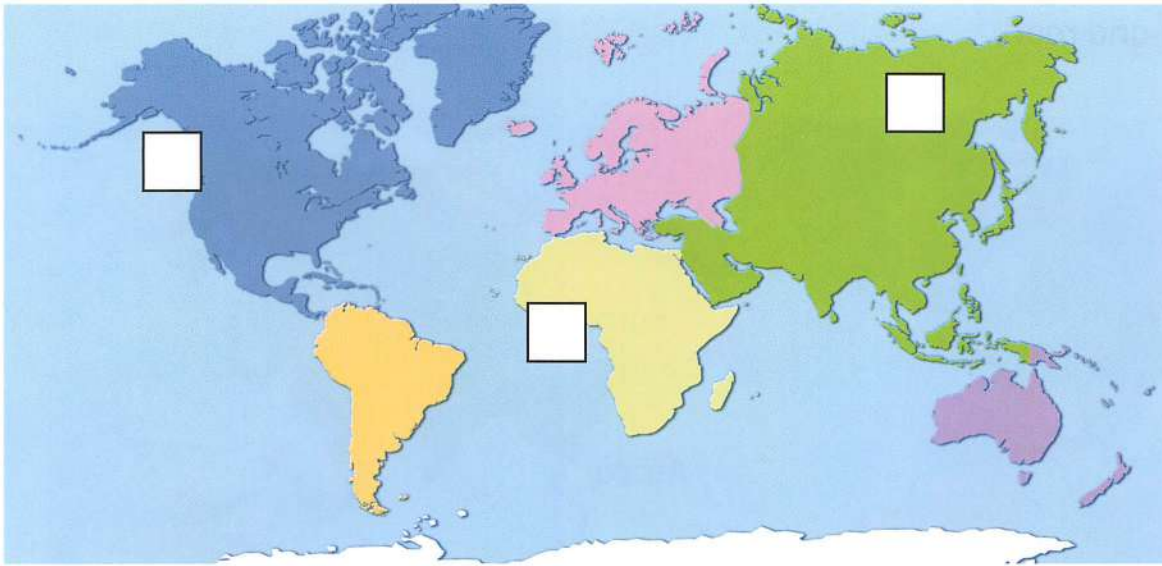

1. About fifty percent of the Earth is land.
2. The land on Earth is divided into nine continents.
3. Continental drift is the continents moving slowly.
4. Africa is the largest continent and has the most people.
5. The coldest and windiest continent is Antarctica.

### New Words

continent	Africa
Antarctica	Asia
Australia	Europe
North America	
South America	
continental drift	
country/countries	

# Project Time: Fun Fact Poster

A.  Listen and number in order.

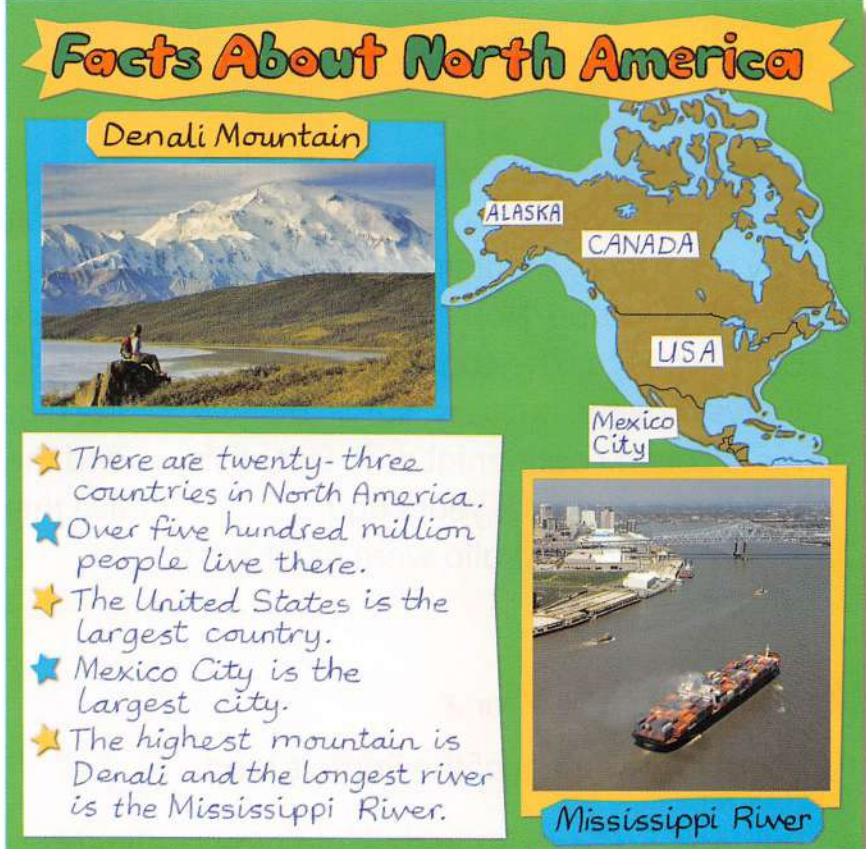

B. Make a fun fact poster about one continent.

1. Choose a continent. Find out about it. For example:

- How many countries are there?
- How many people live there?
- What is the biggest city?
- What is the highest mountain or longest river?

2. Draw or find pictures. Write.

3. Include a map in your poster.

## Facts About North America

**Denali Mountain**

ALASKA  
CANADA  
USA  
Mexico City

- ★ There are twenty-three countries in North America.
- ★ Over five hundred million people live there.
- ★ The United States is the largest country.
- ★ Mexico City is the largest city.
- ★ The highest mountain is Denali and the longest river is the Mississippi River.

**Mississippi River**

C. What do you think? Ask a partner.

1. Which continent do you live on?
2. Which continent do you want to visit?
