CD2
29

Butterflies

The monarch butterflies are here in California! They usually live in the north in the summer. Every winter, they spread their wings and fly south to Mexico because they don't like the cold.

Monarch butterflies are beautiful. They fill the sky with orange and black spots when they fly.

In the winter, the butterflies stop in California to rest. They are in all the trees. Winter is my favorite season because the butterflies are here. They are graceful, colorful, and wonderful.

In the spring, they will fly north again to Canada.

New Words

monarch butterfly
north
spread
wings
south
wonderful

B Choose the correct answer

CD2
30

1. Where do monarch butterflies usually live? a. in the north b. in the south
