Huge Ruins

There are many pyramids around the world. You can see pyramids in Egypt, in Africa, in Greece, in Mexico, and in China.

The most famous pyramids are in Egypt. The largest pyramid is in Mexico. But, the oldest pyramids may be underwater.

Divers have found ruins in the ocean near Japan. They think they have found a very old city. Some of the ruins look like pyramids.

Who built the underwater city?

Why did it sink?

Was there an earthquake?

Did the ocean rise?

It's a mystery.
